Subject: Request for Public Comments on Injection Wells
Date: Tuesday, January 19, 2021 1:12:18 PM

Dear Mr. Batka,

I am writing to request a public comment period be held re proposed draft permits for Ottawa County (MI) Landfill, Inc. draft permit numbers **MI-139-11-0007 and MI-139-11-0008**.

The public comments should include discussion of whether this is truly “non-hazardous waste” to be permitted to fill our underground formations and what risks are being considered in saying that this is safe from contaminating our drinking water and groundwaters. What serious investigation has been taken to assess environmental costs?

I look forward to hearing that a public comment period/public hearing is to be scheduled. I strongly oppose these permits.
